

## IMPORTANT NOTIFICATION

### Developer' s API Portal by Pancreta Bank

According to 14/3/2019 New Payment Services Directive 2 – PSD2, Pancreta Bank S.A. has exposed its payment services through a secure transaction portal and has provided to our customers an open environment of digital banking applications called **Pancreta API Portal**, and can be accessed directly at <https://apiportal.pancretabank.gr>.

This new service enables Third Party developers – TTPs, such as technology companies, application developers and startups (Fin Techs) to develop new applications and productions by using Application Programming Interface (APIs) thus enhancing their cooperation with Pancreta Bank.

Collaboration between banks and TPPs permits our Bank customers to use information regarding accounts and payments, creating safe and innovative products, on explicit customer consent.

Pancreta Bank S.A. aims to ensure cheaper, safer and more innovative informational services and electronic transactions through Pancreta API Portal.
